Prints — Atividade Aula 08 · greenLife (Grupo B)

Streaming, Detalhe da Entidade Principal e Feed Paginado — Entidade: **Product**

> Streaming (rota /stream, Range, 206 e player) não se aplica: o greenLife é Grupo B (arquivo único = imagem).
> Validações executadas em ambiente de teste: MariaDB 10.11 (compatível com MySQL, banco *greenlife_db*), API em localhost:3000 e front (Vite) em localhost:5173, navegador Chromium.
> Usuários e produtos cadastrados pela própria API para o teste.

PARTE A — Backend: Detalhe e Feed

A0 — Login e obtenção do token (joaomonteiro)

Terminal — greenLife-app-api (ambiente de teste · MariaDB 10.11)

```
teste@ambiente-validacao:~/greenLife-app-api$ curl -s -X POST http://localhost:3000/api/login -H "Content-Type: application/jso
n" -d '{"email":"joaomonteiro@greenlife.com","password":"senha123"}'
{"success":true,"message":"Login realizado com sucesso.","data":{"user":{"id":1,"username":"joaomonteiro"},"token":"eyJhbGciOiJI
UzI1NiIsInR5cCI6IkpXVCJ9.eyJpZCI6MSwidXNlcm5hbWUiOiJqb2FvbW9udGVpcm8iLCJpYXQiOjE3OTE1MDAwODIsImV4cCI6MTc5MTUwMzY4Mn0.6SJI_KP9y7z
JBkHwY8rU1Gj42ovl4YkYF9Hz-6QTRGA"}}

teste@ambiente-validacao:~/greenLife-app-api$ TOKEN=$(curl -s -X POST http://localhost:3000/api/login -H "Content-Type: applicat
ion/json" -d '{"email":"joaomonteiro@greenlife.com","password":"senha123"}' | jq -r .data.token)
teste@ambiente-validacao:~/greenLife-app-api$ echo $TOKEN

const asyncHandler = require('../../middlewares/asyncHandler');
const isAuthenticated = require('../../middlewares/auth');
const profileMulter = require('../../middlewares/profileMulter');

router.get('/feed', isAuthenticated, asyncHandler(userController.getFeed));
router.post('/register', registerValidator, asyncHandler(userController.register));
router.post('/login', loginValidator, asyncHandler(userController.login));
router.post('/logout', asyncHandler(userController.logout));
router.get('/profile/me', isAuthenticated, asyncHandler(userController.getMyProfile));
router.put('/profile/me', isAuthenticated, profileMulter.single('profilePicture'),
    profileUpdateValidator, asyncHandler(userController.updateProfile));
router.get('/profile/:username', asyncHandler(userController.getPublicProfile));

module.exports = router;
```

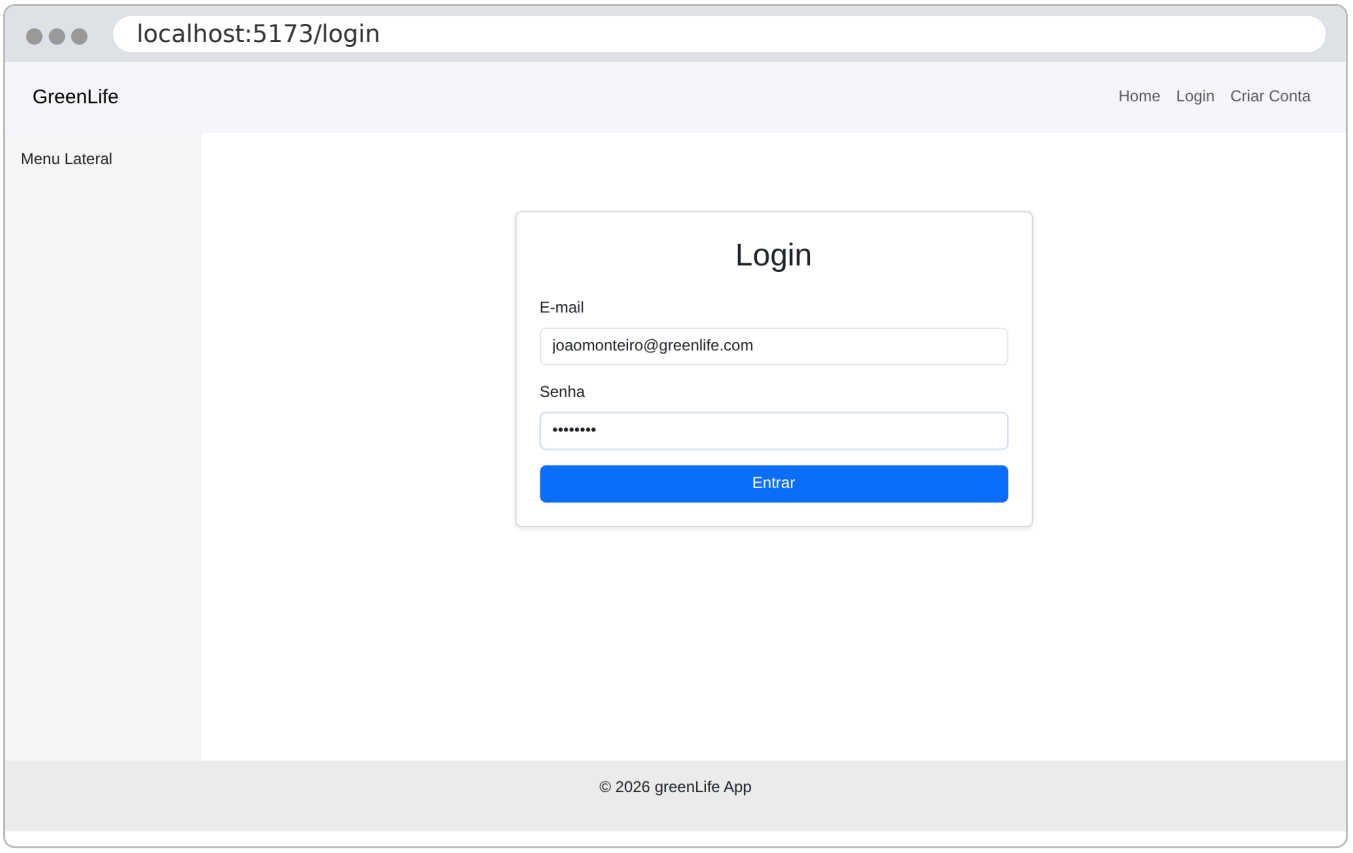

A10 — productService.js: getProductDetails (include, views, isOwner) e getFeedProducts (offset = (page - 1) * limit)

modules/product/productService.js (linhas 42–91)

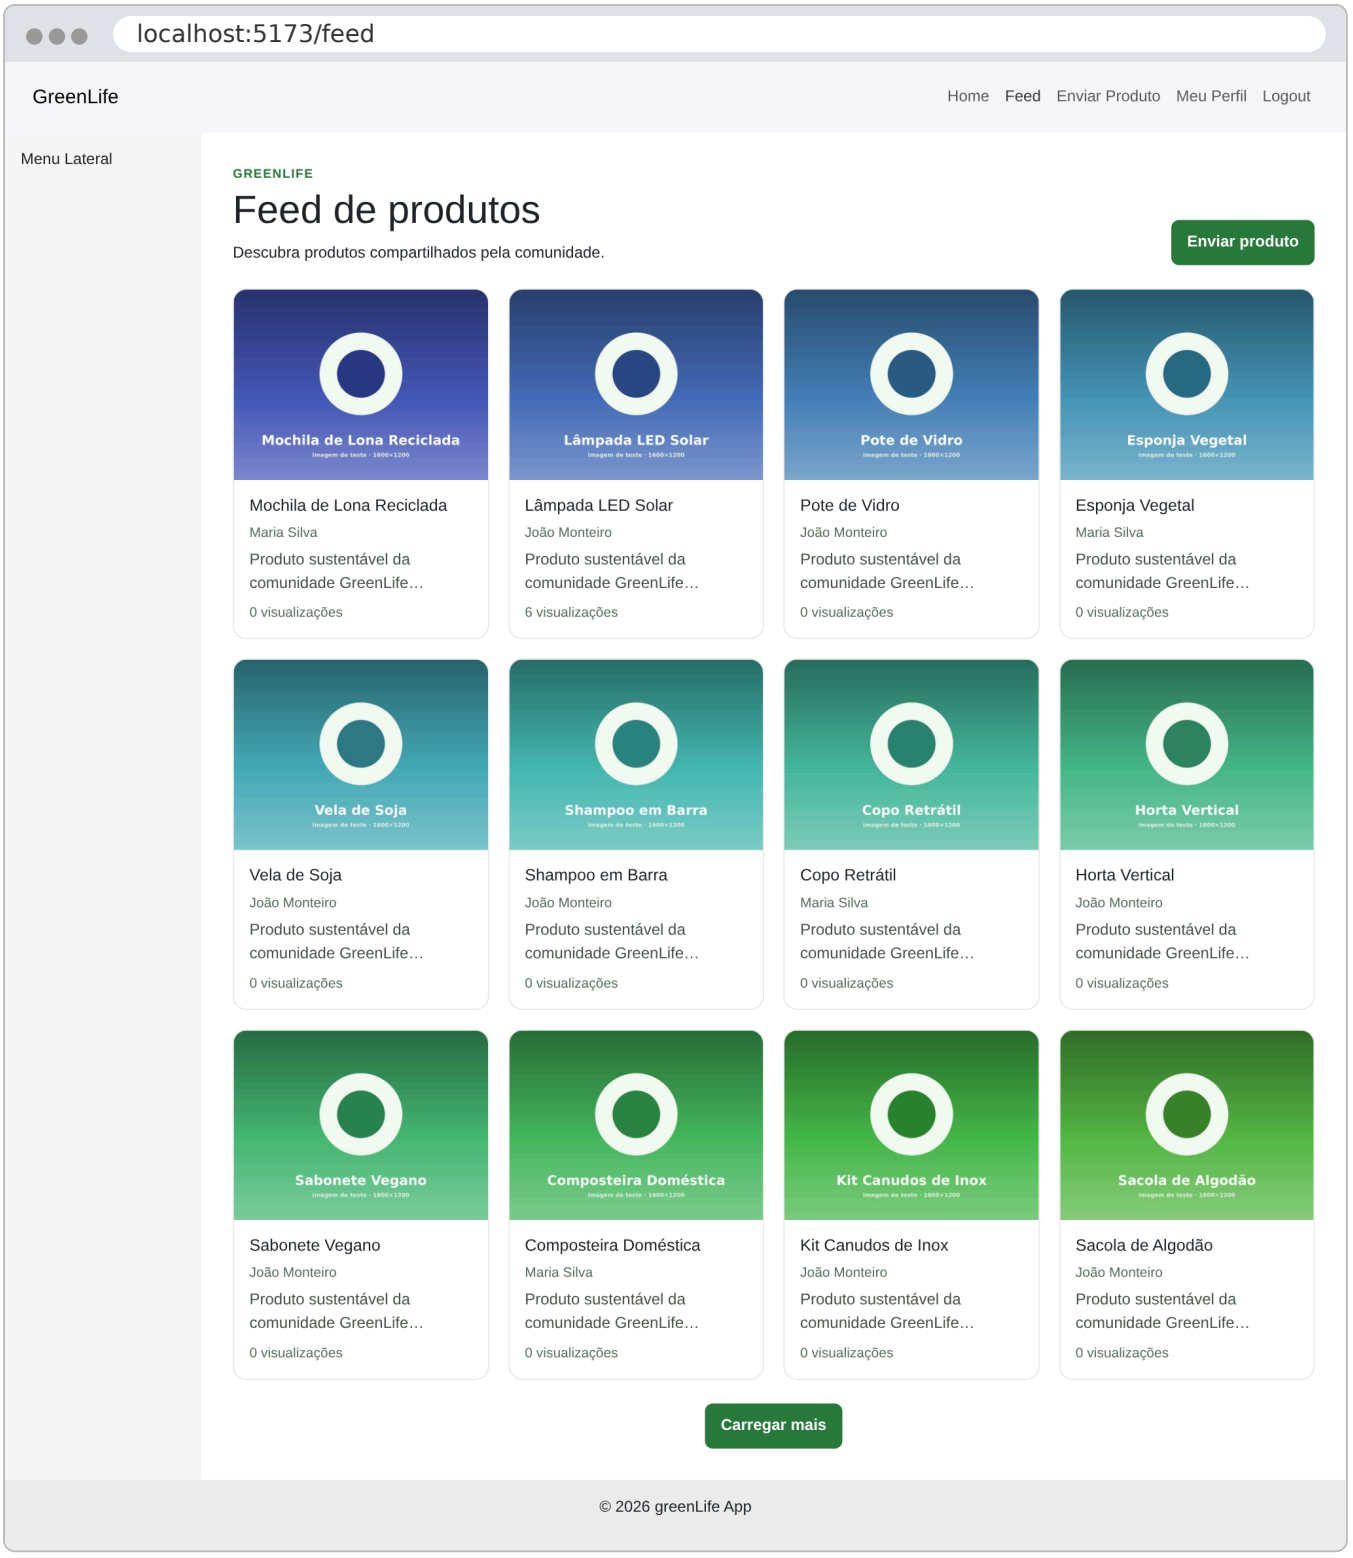

```
42  async function getProductDetails(productId, viewerId = null) {
43      if (!/^\d+$/.test(String(productId)) || Number(productId) < 1) {
44          throw createHttpError("Produto não encontrado.", 404);
45      }
46
47      const product = await Product.findByPk(productId, {
48          include: [getAuthorInclude()]
49      });
50
51      if (!product) {
52          throw createHttpError("Produto não encontrado.", 404);
53      }
54
55      await product.increment("views");
56      await product.reload({ include: [getAuthorInclude()] });
57
58      return {
59          product,
60          isOwner: viewerId != null && Number(product.userId) === Number(viewerId)
61      };
62  }
63
64  async function getFeedProducts(page = 1, limit = 12) {
65      const pageNumber = Number(page);
66      const pageSize = Number(limit);
67
68      if (!Number.isInteger(pageNumber) || pageNumber < 1 ||
69          !Number.isInteger(pageSize) || pageSize < 1 || pageSize > 50) {
70          throw createHttpError("Os parâmetros page e limit devem ser inteiros positivos (limit máximo: 50).", 400);
71      }
72
73      const offset = (pageNumber - 1) * pageSize;
74      const result = await Product.findAndCountAll({
75          include: [getAuthorInclude()],
76          order: [["createdAt", "DESC"], ["id", "DESC"]],
77          limit: pageSize,
78          offset,
79          distinct: true
80      });
81
82      return {
83          products: result.rows,
84          pagination: {
85              page: pageNumber,
86              limit: pageSize,
87              total: result.count,
88              hasMore: offset + result.rows.length < result.count
89          }
90      };
91  }
```

PARTE B — Frontend: Feed e Detalhe com dados reais

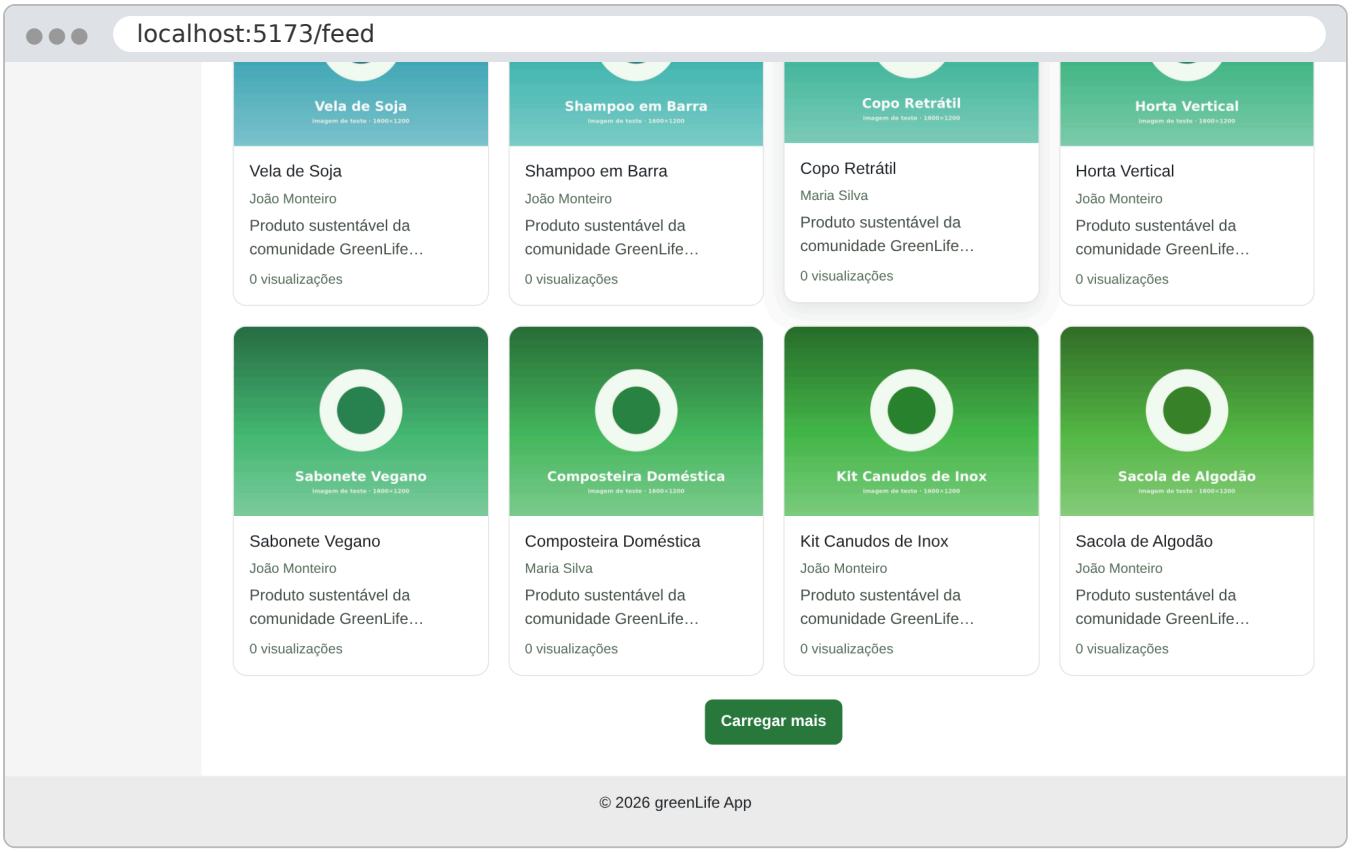

B0 — Login

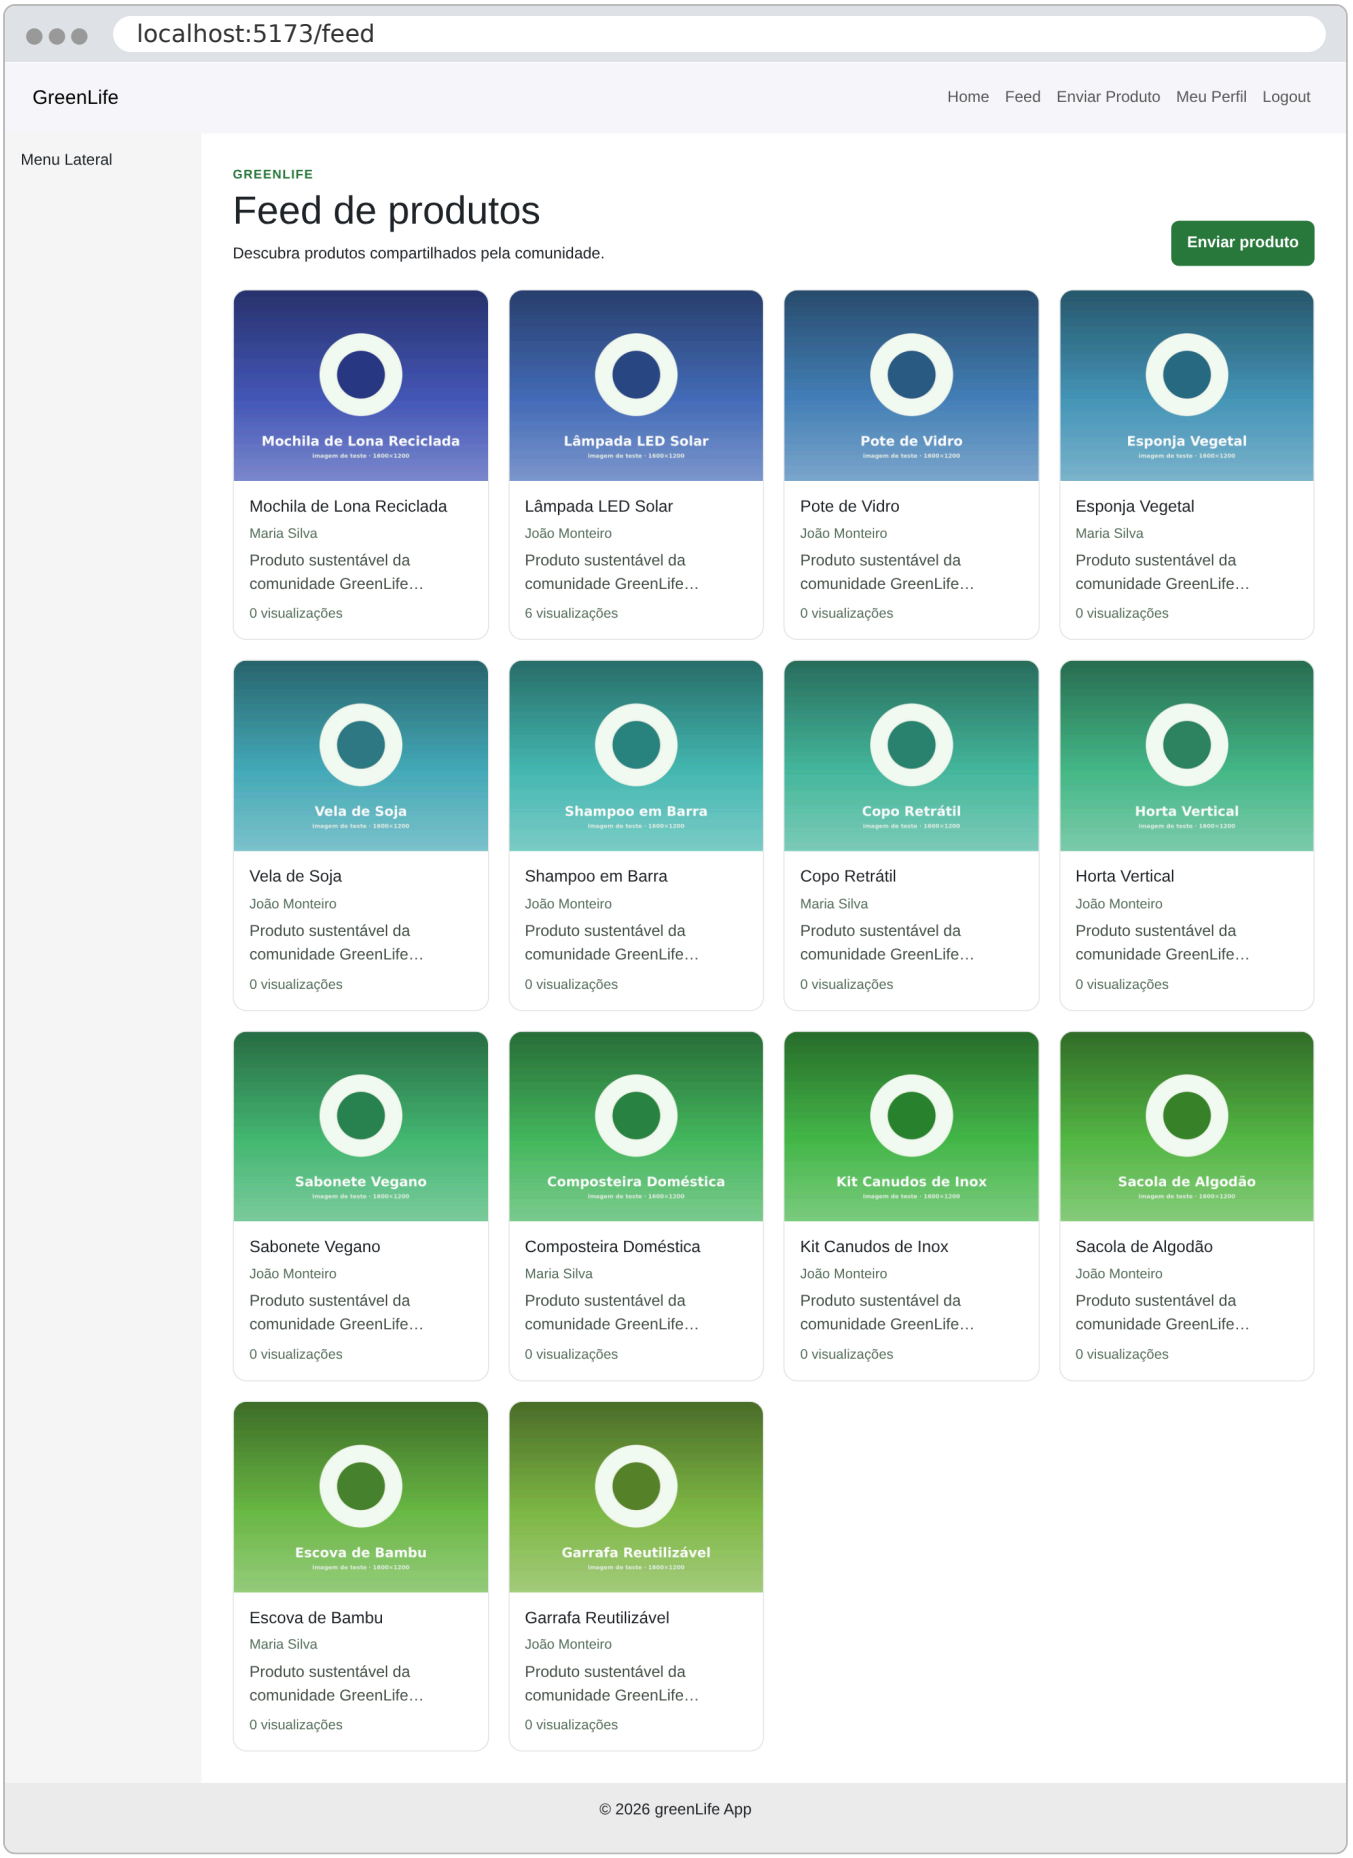

B1 — Feed com itens reais em grade (link Feed na Navbar) — página 1: 12 cards

B2a — Botão “Carregar mais”

B2b — Após clicar em “Carregar mais”: 14 cards, botão some (hasMore: false)

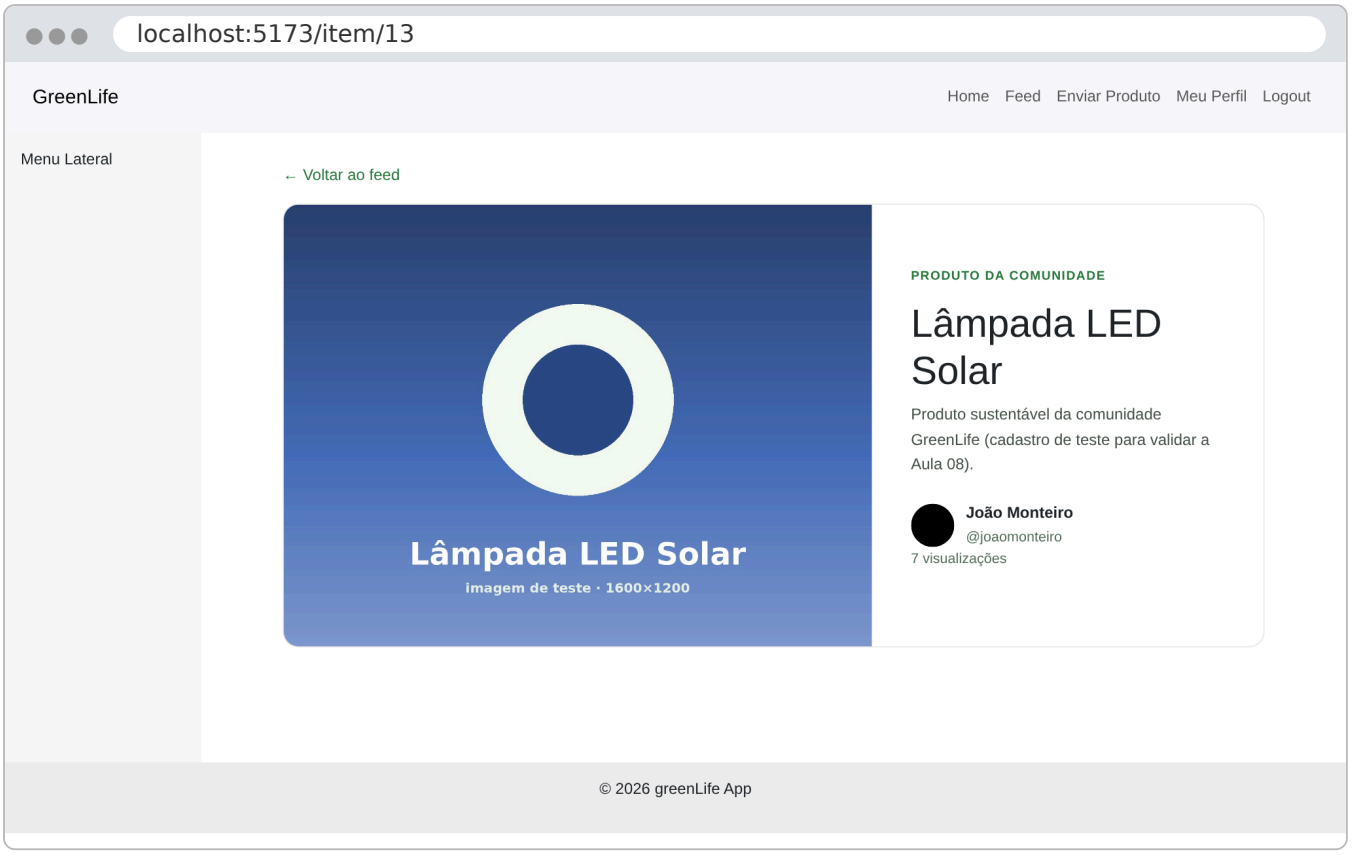

B2c — Requisições paginadas do Feed

Requisições de rede registradas pelo navegador de teste (equivalente à aba Network do DevTools) — paginação do Feed

Método	URL (http://localhost:3000…)	Status	Tipo
GET	/api/feed?page=1&limit=12	200	xhr
GET	/api/feed?page=2&limit=12	200	xhr

B3 — Clique no card → Detalhe (sem recarregar a página), imagem em resolução real

B4 — Imagem carregada do caminho estático /uploads, maior que a miniatura do card

Requisições ao abrir o detalhe do produto 13 — a imagem vem do caminho estático /uploads (sem /stream, sem token)

Método	URL (http://localhost:3000…)	Status	Tipo
GET	/api/products/13	200	xhr
GET	/uploads/profiles/default-profile.png	200	image
GET	/uploads/products/1791500048944-12.jpg	200	image

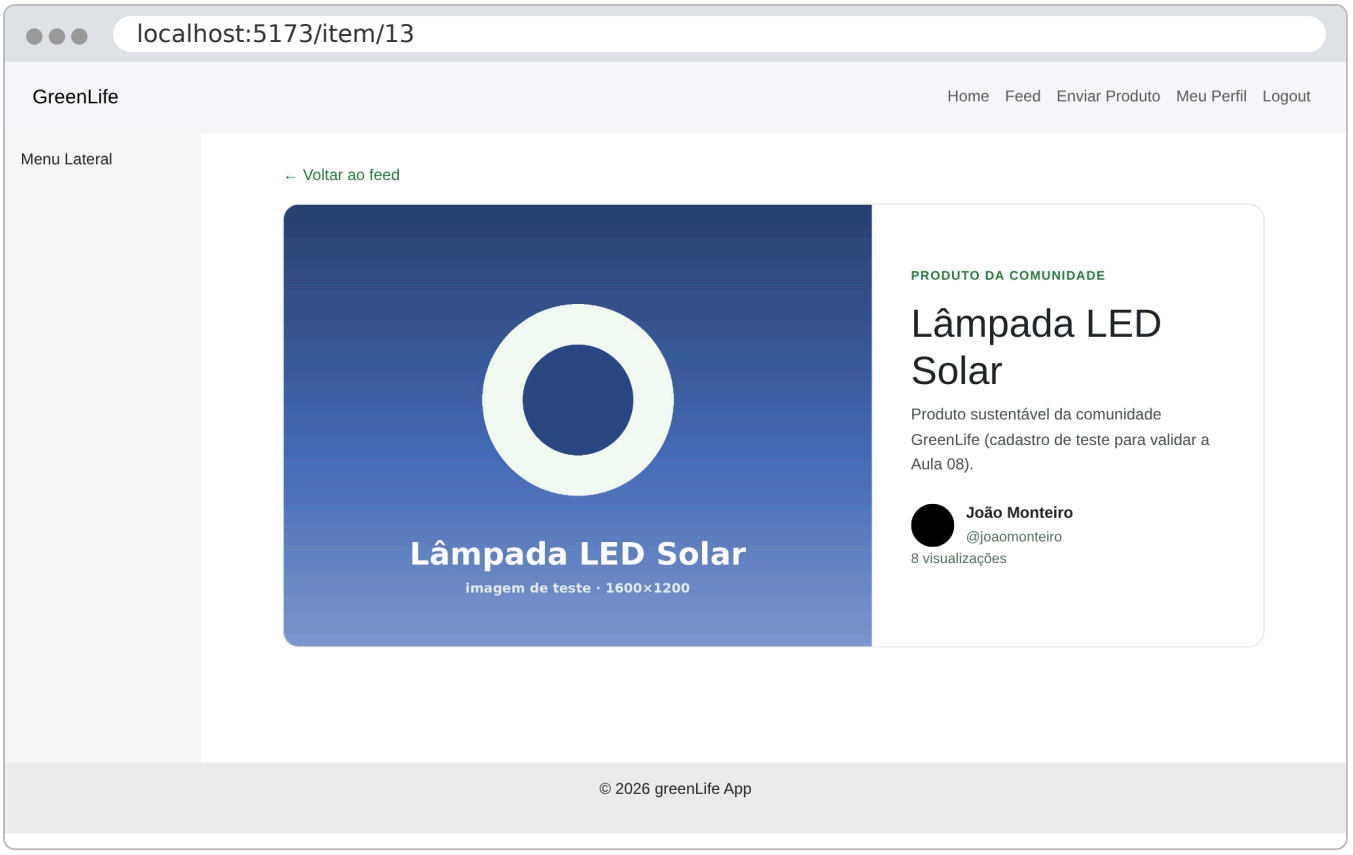

Imagem do detalhe: naturalWidth × naturalHeight = 1600 × 1200 px (arquivo original)
Exibida no detalhe: 599 × 449 px | Miniatura no card do Feed: 259 × 194 px
src = http://localhost:3000/uploads/products/1791500048944-12.jpg

B5 — isOwner recebido da API e guardado no estado da tela

Estado da tela de Detalhe (ItemDetailView) lido no navegador após carregar o produto 13 logado como joaomonteiro

```
> URL atual: http://localhost:5173/item/13
> ItemDetailView.setupState.isOwner → true
> window.__semReload (marcado antes do clique no card) → "mesma página"  (a página não recarregou: navegação SPA via RouterLink)
```

B6a — F5 no Detalhe: contador passou de 7 visualizações para 8 visualizações

B6b — Conferência via curl (a própria chamada do curl também conta uma visualização)

Terminal — greenLife-app-api (ambiente de teste · MariaDB 10.11)

```
teste@ambiente-validacao:~/greenLife-app-api$ curl -s http://localhost:3000/api/products/13 | jq .data.product.views
9
```

B7 — Id inexistente pela URL → mensagem de erro, sem quebrar a tela
